

# Authorship Rules

All members of SPARC must adhere to the following:

- (1) All published work will be authored as ‘Named author(s), SPARC collaborators’.
- (2) All individuals contributing to the project will be acknowledged.
- (3) Named authors include only the Chief Investigator(s) and those Local Lead Investigators that contribute significantly to the final published manuscript. Only Chief Investigator(s) can authorise named authorship.
- (4) Authorship agreement for each team member must be agreed on entry into the team. The authorship status held by an individual must be stated in the authorship agreement.
- (5) Ranking of named authors and contributors
  - a. Named Authors:
    - i. Named authors will be listed in order of proportions of workload contributed by each named individual.
  - b. Contributors:
    - ii. Local Lead Investigators are listed first. Names are listed alphabetically according to surnames.
    - iii. Local Investigators are listed second. Names are listed alphabetically according to surnames.
    - iv. Minor contributors are listed third. Names are listed alphabetically according to surnames.
- (6) All contributing collaborators and the SPARC group must be acknowledged in any resulting posters, presentations, publications by the Chief Investigator(s).
- (7) Data collected by collaborators may be presented locally. It may also be published as isolated data after agreement from the Chief Investigator(s). The Chief Investigator(s) and the SPARC group must be acknowledged.
- (8) Any dispute regarding authorship is to be reported directly to the trustees who with have the authority to arbitrate and if necessary suspend membership.
- (9) Appropriate referencing may be made by both the Chief Investigator(s) and collaborators for curriculum vitae purposes.
